EDUCATION

Bachelor of Mechanical Engineering

Sept 2024 - Present

Zhejiang University, Hangzhou, China

Cumulative GPA: 3.57 / 4.0

PROJECTS

Perception and Navigation for Autonomous Robots

Sept 2025 - Feb 2026

Research Assistant at Lab of CAD&CG, ZJU

- Developed and tested perception modules for mobile robots in unstructured environments.

Binocular Video-based Object Pose Estimation in HOI

Mar 2026 - Present

Research Assistant at Lab of CAD&CG, ZJU

- Developed an algorithm for 6D object pose estimation using binocular video sequences to handle complex Hand-Object Interactions (HOI).
- Leveraged spatial-temporal information from stereo cameras to improve the robustness of pose tracking under occlusions.

RESEARCH PUBLICATION

INTERNSHIP/TRAININGS

Shanghai Jiao Tong University (SJTU)

July 2025

AI4Math Summer School: Lean4 and Mathematical Formalization

Shanghai, China

- Awarded **"Excellent Participant"** for outstanding performance in the course and assessment.
- Mastered mathematical formalization using the **Lean 4** interactive theorem prover.
- Engaged in deep discussions regarding the intersection of Artificial Intelligence and Formal Mathematics.
